Location Ideas

Student Union

San Jose State is always talking about all the healthy food they offer in the Student Union. However, oftentimes the food is salty or rotting. They also have limited options for vegetarians and vegans. It is hard to even find a salad yet there is an abundance of various fried foods.

We thought it would be fun to critique the Student Union. One subtle way we came up with would be to replace the icons on Steak Shake with little symbols to represent various forms of disease. Fast food is high in sodium which can affect numerous organs like your heart and kidneys.

Standing sign

Blue safety university phones

San Jose State is a campus open to the public. This sometimes results in crime on campus. In more recent years, more cameras and blue phones were added but sometimes it seems like its more for the facade of safety and deferral of crime than actual security. We feel this way because one time we used the phone when our friend hurt her foot and security never showed up for 45 minutes to help give her a ride to the garage.

- More sarcasm

PEDESTRIANS AHEAD SIGN

This would be on San Fernando next to 9th Street on a sign that's facing towards the downtown. This is meant to address the gap between expensive housing and businesses in the downtown and students and people of homelessness.
